# Engageli Studio

Create interactive learning content in just 3 clicks

Engageli Studio is an AI-powered tool that makes building active, self-paced learning experiences fast and easy.

Designed for course designers and teachers, Engageli Studio turns your videos and presentations into interactive modules that engage learners and support better learning outcomes.

How Engageli Studio works

1 **Upload your content:** Start with a video of your lectures, training sessions, or presentations.

2 **Add AI magic:** Engageli's AI automatically segments your content into micro-lessons and embeds interactive quizzes, polls, and activities to boost engagement.

3 **Publish and track:** Deploy your course instantly and gain real-time insights into completion rates, engagement levels, and learner outcomes through Engageli's analytics dashboard.
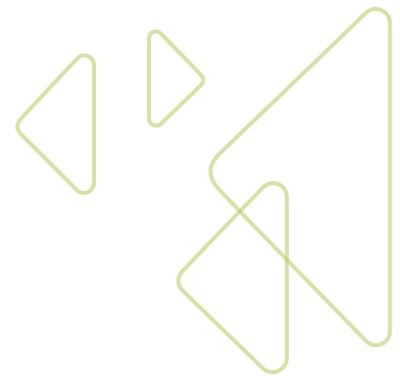

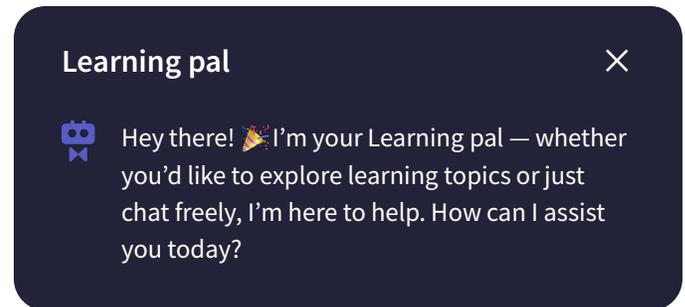

Maximize learning and engagement

Active learning drives better outcomes than passive content. Engageli's Active Learning Impact Study found that interactive learning environments increase engagement by 13x and boost test scores by 54% compared to passive methods. Engageli Studio transforms videos into active learning experiences with built-in quizzes, polls, and activities—ensuring deeper comprehension and higher retention.

Key features

- **Smart content chunking:** Automatically breaks videos into micro-lessons by topic, assigning titles and organizing content logically.

- **Interactive learning tools:** Automatically generates polls, quizzes, and activities such as shared documents, essays, and reflections to deepen learning and maintain engagement.

- **Integrate additional resources:** Easily add related videos, PDFs, and supplemental content to enhance the learning experience.

- **Track and optimize learning success:** Access insights on learner progress, participation trends, and knowledge gaps through Engageli's intuitive dashboards.

Learning Pal: Your AI-powered tutor

Your learners will immerse themselves in your new course accompanied by Learning Pal, an AI-powered tutor that encourages them to explore the lesson content and deepen their understanding and knowledge retention.

Learning pal   ✕

🤖 Hey there! 🎉 I'm your Learning pal — whether you'd like to explore learning topics or just chat freely, I'm here to help. How can I assist you today?

Early access details

Engageli Studio's early access is now available! You can create a free account and explore all features of Engageli Studio until **April 30, 2025**. This is your chance to transform videos into engaging learning experiences, share your feedback, and help shape the future of immersive asynchronous learning.

On May 1, 2025, the free access will expire, so make sure to take full advantage of this offer while it lasts!
